Bug, Camera and Electronic  
Detection Sweeps for Your Home,  
Business and Vehicles Conducted  
by Former Federal Agents

# IS YOUR COMPANY OR HOME AT RISK OF CORPORATE ESPIONAGE?

**WE FIND BUGS, CAMERAS AND MONITORING DEVICES. GUARANTEED.**

## Could you or your company be a victim of a monitoring device or camera?

It can happen to any company that has a competitor who would benefit from an unfair advantage. Companies in high-risk environments are especially vulnerable:

- Pending layoffs
- Labor negotiations or union activities
- Potential public offering
- Ongoing legal action

### WE VISUALLY AND ELECTRONICALLY SWEEP:

- Landlines
- Mobile phones
- Computers
- Vehicles

Individuals and their families, especially those involved in litigation and family law matters, are also at risk.

Martin Investigative Services offers a complete electronic detection sweep, performed in three phases over two days. We guarantee that we will find all eavesdropping or camera devices secreted in your home, business or vehicle.

Listening devices

Hidden cameras

Audio bug

Bedroom cameras

It is also important to identify who planted the devices in the first place. Our investigators are former FBI, DEA, IRS and Secret Service agents with decades of experience in these cases.

**MARTIN INVESTIGATIVE SERVICES**  
A Professional Corporation

Martin Investigative Services has helped thousands of clients with surveillance cases, finding people, bug sweeps, cheating spouse cases, asset searches, corporate investigation, unsolved crimes, litigation support and much more.
